I believe we are making a difference like no other service organization in the world. I believe in our motto “We Serve.” And **I believe** in you – the Lions of the world, who make up a network of caring, and a network of service. Together, as a family of unique volunteers, we constitute Lions Clubs International – the global leader in community service.

This year, I am calling on all Lions to embrace a sense of belief of what it truly means to be a Lion – a belief that each individual Lion makes a difference and that, together, we can change the world even more than we have yet imagined.

I have set my vision – driven by my beliefs – on three special goals this year:

Strengthening and retaining our membership by taking care of fellow members as if they were family

Expanding our service to new heights, propelled by a special campaign to plant one million trees

And nurturing our future by involving more young people and Leos in all that we do Together we will flow onward – a benevolent flood of service to the world.

Wing-Kun Tam
INTERNATIONAL PRESIDENT

TREE PLANTING CAMPAIGN

GOAL: Lions Plant 1 million trees this year

More than 80 percent of the forests that originally covered the Earth have been lost or degraded. Between 1980 and 1990 alone, the Latin American region lost 62 million hectares (6.0 percent) of its natural forest, which was the largest loss in the world during those years, with a further 5.8 million hectares a year lost between 1990 and 1995. Despite efforts to reverse this trend, deforestation continues at an alarming rate each year, particularly in Africa, Latin America, and Asia and the Pacific. (Source: UNEP)

So why are trees important? It's no secret that trees help the environment, but you may be surprised by all the benefits that planting a tree can provide.

Trees and the Environment

From an environmental perspective, trees are vital to many processes that make life on Earth possible.

According to the United Nations Environmental Programme, trees are fundamental elements of various natural systems. They conserve soil and water, control avalanches, prevent desertification, protect coastal areas and stabilize sand dunes. Forests house nearly 90 percent of terrestrial life and are vital centers of biological biodiversity on land. (Source: UNEP Billion Tree Planting Campaign)

Trees and People

People around the world depend on trees for their livelihood. Nearly three hundred million people live in forests and rely on trees for fuel wood, medicine and food. Another 1.6 billion people depend on trees and forests for subsistence and income. (Source: FAO)

In addition, trees are vital to agricultural productivity. Trees not only help to improve soil quality, but also attract animals that are essential for pollination, seed dispersal, and germination. (Source: World Agroforestry Centre)

Trees and the Economy

Forestry-related industries generated nearly US\$500 billion in 2006. An additional US\$189 billion was produced through the global trade of primary wood products. (Source: FAO)

Green economies increasingly focus on agroforestry, an approach that integrates trees into farming systems for more sustainable land use, and other methods of sustainable economic activities

Global Service Action Campaigns

Through service, Lions have impacted the lives of millions of people. Now more than ever, we are in a position to extend our network of care. To show this strength, Lions have the opportunity to participate in four special service action campaigns.

August – Engaging our Youth

Invite Leos and youth in your area to help organize and participate in a service project. Projects may include school or community facility cleanups or a visit to a home for senior citizens or a children's hospital. Allowing youth to develop and lead a service project enables them to learn skills while emphasizing the role of service.

October – Sharing the Vision

Plan vision health projects and work with the visually impaired. Many Lions already celebrate World Sight Day in October. This is a great month to organize a vision screening, volunteer at a nearby Lions Eyeglass Recycling Center, organize an eyeglass collection or an activity to benefit the visually impaired in your community.

December/January – Relieving the Hunger

Organize food drives and projects to feed the hungry. With the downturn in the global economy, many hunger relief organizations are finding it difficult to keep up with demand. Help alleviate hunger by planning events around the end and beginning of the calendar year to collect and distribute food.

April – Protecting our Environment

Implement projects that improve and protect the environment. Organize a highway clean up, plant trees or plan a community "Earth Day" event to collect recyclables such as aluminum cans, plastic bottles, used cell phones and batteries.
